

The Log Wizard is a one of a kind chainsaw attachment that turns your chainsaw into an amazing new tool. The Log Wizard gives you the freedom of time and the value of creation.

Simply attach the Log Wizard to any saw and it springs into action as a debarker, planer, jointer, notcher or peeler.

The Log Wizard is fitted with two 3 and 1/4 inch planer blades to give a wide cutting surface on the log. These blades can be sharpened several times by a qualified facility, or replaced with readily available replacement blades.

The Log Wizard's unique drum design allows for the easiest blade transfer possible, saving you time and money. The single construction drum design ensures a lifetime of hard

The Log Wizard log splitter can split a log in less than 10 minutes.
