- 20,000 lb. 90° Vertical Load
- 1/4" x 6" x 6" Mounting Plates
- 1" - 10 ACME Rolled Thread
- 8" of Settling Adjustment

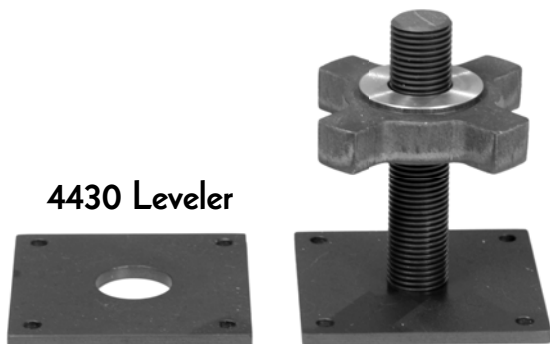

ADVANTAGES

**COMBINED, THESE UNIQUE FEATURES PROVIDE EASE
OF HEAVY LOAD ADJUSTMENT- INSIDE OR OUT**

- Anti-Corrosive & Lubricant Impregnated Plating Process
- Bronze Bearing Reduces Friction
- Spider Nut Provides Adjustment Ease & Increased Load Displacement
- Adjusts with Light Sledge or Wrench

6680 Leveler

4430 Leveler

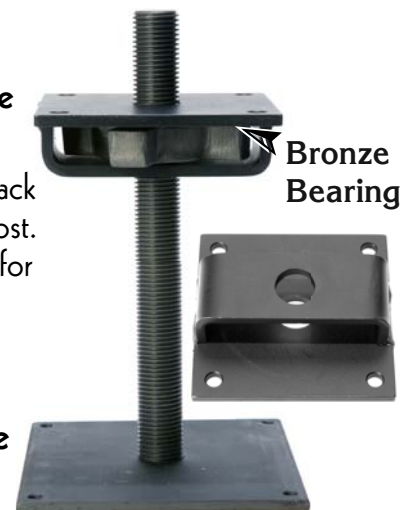

Think Preventive Maintenance for Decks

Same specs as noted for 6680. Our 4" x 4" leveler has 3" of overall adjustment. Elevates support posts above damaging moisture at ground level.

5050 Top Locking Plate

Fits both 6680 or 4430 levelers. Secures the settling jack connection to the support post. Consult a structural engineer for your uplift requirements.

- 5" x 5" Plate
- 1 1/16" Clearance Hole
- Powder Coated
